FOREWORD

The Kentucky Constitution requires each house of the General Assembly to keep a journal as a public accounting of daily legislative activity. It is the official record of action by the General Assembly.

The *Kentucky Revised Statutes* require the Legislative Research Commission to compare, edit, correct, and publish the journals of each chamber. This is the *House Journal* for the Regular Session of 1994.

The texts of simple and concurrent resolutions appear on first reading or adoption. Appendices contain a table of actions on bills and resolutions, a list of elected representatives, the budget memorandum, roll call votes, and a subject index.

Mrs. Jean Wallace and Mrs. Wilda Bond prepared the *House Journal* for the Regular Session of 1994. The edited copy and appendices in this volume reflect the cooperative efforts of the LRC Staff.

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following exceptions: General Fund debt service in the amount of $289,000 in FY 1995-96 is provided for the Northern Kentucky Farmers Market for a $3.0 million bond issue authorized in the capital budget for issue after January 1, 1995. Also included is an $850,500 restricted funds expansion in environmental education programs including $600,000 each year for grants to Area Conservation districts to be funded from an increase in pesticide registration fees. This fee increase will require the passage of legislation to amend KRS 217.630. The motor fuels testing program in the Weights and Measures division has been funded with $394,700 from the General Fund in FY 1994-95 and $355,900 in restricted funds in FY 1995-96. Four additional full time employees are provided for this program. House Bill 135, which would establish the motors fuels testing program, provides funding from restricted funds for both years. Additional restricted funds are also provided in Weights and Measures to increase the inspection of retail price scanners. An additional $100,000 from the General Fund is provided each year to expand the Kentucky Farm Products Logo labeling program.

In addition to the Northern Kentucky Farmers Market, the capital budget provides funding from the General Fund in FY 1994-95 in the amount of $285,000 to purchase two equipment items: a Volume Metric Prover and a Large Scale Test Truck.

Farm Products Logo program is not approved, the Department is directed to utilize existing funds for this program; $100,000 in each year from the General Fund is provided to increase grants awarded to county fairs; and funding is eliminated for three Executive Directors, one Executive Secretary Principal and one Principal Assistant II, effective upon the transition to the new Agriculture Commissioner in FY 1995-96. There is hereby appropriated $394,700 in FY 1994-95 and $355,900 in FY 1995-96 from restricted funds for the purpose of initiating a motor fuels testing program contingent upon passage of enabling legislation (HB 135). There is hereby appropriated $850,000 in each year from restricted funds for environmental education programs contingent upon passage of enabling legislation (HB 452).

In the Capital Budget, the source of funds for two equipment items, the Volume Metric Prover and the Large Scale Test Truck is changed from General Fund to restricted funds.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1994-96. The FB 1992-94 enacted budget provided 28 additional full-time positions over the biennium to handle the increased workload and allowed for a total of 122 full-time positions. The Branch Budget recommendation provides funding for 106 full-time positions and 1 part-time position. The remaining positions were not funded since they were vacant. The Branch Budget recommendation for the Capital Budget request includes $80,800 in restricted funds in FY 1994-95 for the final lease-purchase payment on the IBM AS/400 computer costing a total of $633,000 and the lease authorization of $371,040 for 46,380 square feet of office space. The request for computers for a Local Area Network was not recommended since the IRP was disapproved. The KRS has revised their IRP and will be reviewed by the KISC on February 15, 1994.

* - Eight of the requested positions lost due to the 10% personnel reduction are funded in the Current Services Budget.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: Additional restricted funds of $343,400 in FY 1994-95 and $350,600 in FY 1995-96 are provided to fund the staff positions authorized by the 1992 General Assembly and consist of an additional 16 PFT and 6 other positions. The Current Services Budget is reduced in FY 1995-96 by $80,800 for lease payments that are no longer needed. The Capital request for the computers for the Local Area Network is recommended and restricted funds of $22,500 in FY 1994-95 and $102,200 in FY 1995-96 are provided. Additional funds from the General Fund of $526,200 and from restricted funds of $526,200 are provided in each year of the biennium for the estimated cost of a 1% raise to KERS, KERS Hazardous, and SPRS retirees.

SENATE REPORT

The Senate concurs with the House with the following exceptions: Notwithstanding KRS 61.645 (11), the Kentucky Retirement Systems (KRS) will submit any proposals for legal services to the Office of Attorney General (OAG) to determine if the legal services can be performed by the Office. The KRS must receive a written response from the OAG declining the work before a contract is entered into with a private attorney or law firm. $526,200 from the General Fund and from restricted funds in each year of the biennium is not provided as a direct appropriation for a 1% increase for retirees in each fiscal year. The KRS is directed to provide up to 1% increase in retirement allowance above the level currently authorized in statute should money become available in the margin or from the 5 year actuarial revaluation conducted in 1995.

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1994-96 with the following exception: The Department of Military Affairs was directed in the FB 1992-94 Budget Memorandum to admit patients and hire staff required to fill the 300 bed Nursing Home over the biennium. This mission has not yet been accomplished and there are only 210 patients expected by February 4,1994 with the year end complement dependent upon the funding provided for FB 1994-96. The Branch Budget recommendation anticipates 230 patients to begin FB 1994-96 and an additional 30 patients to be phased in during each year of the biennium for a total patient compliment of 290 and total staff of 396 full-time and 32 other positions by the end of the biennium. The total 428 positions include 10 vacant positions that are not funded but will allow for movement among the nursing positions when a new class of nurses are brought on and several nursing student positions who will not be working at the Home initially. A provision is included in the bill to allow the Adjutant General to request that the State Budget Director authorize additional General Fund moneys to be made available from the General Operations unit for the requirements of the operation of the Nursing Home and the State Budget Director will notify the Interim Joint Committee on Appropriations and Revenue of any transfer that has been approved.

* Requested positions are funded within the Current Services Budget to the extent of 366 full-time and 20 other positions in FY 1994-95 and 396 full-time and 32 other positions in FY 1995-96.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: Notwithstanding KRS 36.355, the Kentucky state veteran's nursing home will be transferred immediately upon the effective date of this act to the Veterans Nursing Home Advisory Commission which is attached to the Finance and Administration Cabinet for administrative purposes. The Operating Budget funds designated below will be transferred to the Veterans Nursing Home Advisory Commission immediately upon the effective date of this act. The Capital Budget recommendation of $150,000 from the General Fund is provided in FY 1994-95 for the Kentucky Veterans Nursing Home and Cemetery feasibility analysis and/or preliminary design and is transferred to the Veterans Nursing Home Advisory Commission which is attached to the Finance and Administration Cabinet for administrative purposes. Additional funding from the General Fund in FY 1994-95 of $300,000 and restricted funds of $1,252,000 in FY 1994-95 and restricted funds of $737,000 in FY 1995-96 are provided to allow the Veterans Nursing Home to reach capacity by September of 1994. 	* FY 1993-94	FY 1994-95	FY 1995-96
General Fund	6,224,600	3,629,400	7,281,200

Total Funds	10,589,600	13,620,400	14,314,200

* The remaining balance on the effective date of this act will be transferred to the FAC.

The Branch recommendation provides a General Fund appropriation of $250,000 in fiscal year 1994-95 for the General Tire Interest Subsidy. It is anticipated that no additional General Fund dollars will be needed beyond fiscal year 1994-95 in support of this program, although General Tire will be reimbursed for any necessary amount due if the LIBOR Interest Rate exceeds 7.70%. The fiscal year 1994-95 General Fund appropriation for the General Tire Interest Subsidy is provided in the Current Services Budget.

Included in the Branch recommendation is $400,100 for fiscal year 1994-95 and $416,100 in fiscal year 1995-96 in General Fund dollars for the Coal Marketing and Export Council. The Council was attached to the Office of the Secretary in FY 1991-92 per Executive Order 92-387.

A language provision in the Budget Bill authorized the Economic Development Secretary, with the approval of the Secretary of the Finance and Administration Cabinet, to advance expenditures, up to $500,000 from the Economic Development Contingency Fund within the Capital Projects Fund, for financial assistance toward a specific economic development project prior to issuance of Economic Development bonds for the project. Contingency fund expenditures exceeding $200,000 for a project must be reported to the Capital Projects and Bond Oversight Committee and recorded in the Annual Capital Construction Report. In addition, the Language provision in the Budget Bill directs that the amount of any Contingency Fund Advance for financial assistance be included in the project bond issue and the Contingency Fund advance be repaid. The Contingency Fund financial assistance is restricted to actual and necessary costs certified by the Secretary and may be used for feasibility studies, site survey and evaluation, environmental impact studies, legal services, or similar incidental expenses.

Language provision in the Budget Bill continues the fiscal year 1993-94 Continuing General Fund Appropriation into fiscal year 1994-95 to meet the Commonwealth's commitment for a financial assistance program to preserve existing jobs and prevent unemployment. Notwithstanding KRS 45.229, any balance unexpended in FY 1994-95 shall continue into fiscal year 1995-96.

If funds are not fully utilized then any other community based enterprize zone organization may apply to the Cabinet for funding support.

The House appropriates $400,000 in General Fund each year of the biennium for the Coal Marketing and Export Council for the purpose of public education of coal related issues, contingent upon passage of enabling legislation (HB 368).

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget maintains the existing level of funding for certain components of SEEK, provides additional General Fund support for other components and establishes limited policy for the SEEK program. The Branch Budget is based on a projected average daily attendance (ADA) of 587,509 in FY 1994-95 and 590,881 in FY 1995-96 and establishes a basic SEEK per pupil guarantee of $2,495 in FY 1994-95 and $2,570 in FY 1995-96 (this guarantee includes $100 per pupil for capital outlay). Additional funds totaling $33,010,400 in FY 1994-95 and $77,194,500 in FY 1995-96 are provided to accomplish this. The Branch Budget includes an additional $14,553,900 in FY 1994-95 and $13,739,600 in FY 1995-96 to fully fund the Tier I component of the SEEK program and an additional $9,000,000 in FY 1994-95 and $15,000,000 in FY 1995-96 for employer contributions to the Kentucky Teachers' Retirement System on behalf of local school district employees. Funding for the following SEEK and SEEK-related components is maintained at the FY 1993-94 level for the biennium: pupil transportation, Facilities Support Program of Kentucky (FSPK), and vocational school travel. Funds transferred to state-operated vocational schools is maintained at the current level in FY 1994-95 and increased by $500,000 in FY 1995-96. The Branch Budget maintains a .15 factor to be applied to the SEEK base per pupil guarantee ($2,495 and $2,570) to determine the amount of "at-risk" funds to be included in the SEEK calculation and the .3 deduct that is applied against the base per pupil guarantee in those instances where a pupil spends a portion of the school day at a state-operated vocational school. This deduct is applied to the portion of the day the student spends at the vocational school. The Branch Budget continues a modified "hold-harmless" guarantee and provides that every school district will receive at least the same amount of SEEK state funding per pupil in each year of the biennium as was received in FY 1991-92. The Branch Budget makes the FY 1993-94 budget reductions in the SEEK program recurring. This reduction is to continue to be applied to administrative overhead and related expenditures and represents approximately 10% ($9 million) of the total state/local funding for such expenditures. This reduction is applied after implementation of the hold-harmless provision. The level of equalization for Tier I and FSPK is set at $295,000 per pupil for each year of the biennium.

HOUSE REPORT

The House concurs with the Branch Budget with the following additions. $1,900,000 in FY 1994-95 and $1,800,000 is added to the Facilities Support Program of Kentucky (FSPK) and $11,486,600 in FY 1994-95 and $14,922,500 in FY 1995-96 is added to basic SEEK.

SENATE REPORT

The Senate concurs with the House Report with the following exception. $10,793,600 in FY 1994-95 and $13,732,500 in FY 1995-96 is added to basic SEEK.

CONFERENCE REPORT

The Conference concurs with the Senate Report with the following provisions:

To participate in the Facilities Support Program of Kentucky, the board of education of each school district shall commit at least an equivalent tax rate of five cents (5¢) to debt service, new facilities, or major renovation of existing school facilities. The five cents (5¢) shall be in addition to the thirty cents (30¢) required by KRS 160.470(12) and any levy pursuant to KRS 157.440(1)(a). The levy shall be made no later than October 1 of each odd-numbered year. Eligibility for equalization funds for the biennium shall be based on the district funds committed to debt service on that date. The five cents (5¢) shall be equalized at one hundred and fifty percent (150%) of the statewide average per pupil assessment. The equalization funds shall be committed to debt service to the greatest extent possible and any excess equalization funds not needed for debt service shall be deposited to a restricted building fund account. The funds shall be escrowed for future debt service or used to address categorical priorities based on the approved facilities plan pursuant to KRS 157.420.

Local school districts shall increase the local teacher's salary schedule by a percentage equal to the increases in state and local SEEK or five percent (5%), whichever is less.

Funds allocated for the Support Education Excellence in Kentucky (SEEK) base and for the adjustment factors - pupil transportation, at-risk students, exceptional children, and home and hospital instruction - and not needed for the SEEK base or for a particular adjustment factor may be allocated to other adjustment factors if funds allocated for that adjustment factor are insufficient.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 and adds the following General Fund support. An additional $1,573,800 in FY 1994-95 and $1,945,900 in FY 1995-96 is provided for the private childcare provider portion of the Out-of-District program. Out-of-District funds will be used to support the Kentucky Educational Collaborative for State Agency Children, pursuant to Senate Bill 260 enacted by the 1992 General Assembly. An additional $400,000 in FY 1994-95 and $420,000 in FY 1995-96 is provided for expansion of the Gifted and Talented Program. An additional $28,355,400 in FY 1994-95 and $42,701,200 in FY 1995-96 is provided for mandated health insurance premiums for local school district and educational cooperative employees and an additional $31,300 in FY 1994-95 and $51,500 in FY 1995-96 is provided for life insurance premiums for this same group of employees. This significant increase in the amounts for health insurance premiums is due to the FY 1993-94 Executive Budget Reduction that reduced the health insurance appropriation to the Department of Education by $24,533,500. The Branch Budget also includes additional General Fund totaling $36,800 in FY 1994-95 and $74,000 in FY 1995-96 to match federal funds available through the National School Lunch program. This will produce additional federal funds totaling $2,251,200 in FY 1994-95 and $4,542,900 in FY 1995-96.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 and adds the following General Fund support. $10 million is added to the Successful Schools Trust Fund in FY 1995-96 and an additional $389,700 in FY 1994-95 and $801,200 in FY 1995-96 is provided to continue the contract with Advanced Systems in Measurement and Design for the continued development and implementation of the student assessment system. The Branch Budget provides two sources of funding for schools that have failed to meet their threshold as a result of the KIRIS assessment program. $4,500,000 is added in each year of the biennium for the Commonwealth School Improvement Fund. These funds will be available as grants to schools who are "in decline". $3,598,000 in FY 1994-95 and $6,081,800 in FY 1995-96 is provided for Distinguished Educators. Distinguished Educators will work with these schools to develop and implement improvement plans. The Branch Budget also reflects the transfer of the Successful Schools Trust Fund from the Executive Policy and Management program area to the Office of Learning Results Services. It is projected that the Successful Schools Trust Fund will have a balance of approximately $48 million at the end of FB 1992-94. The first payments from this fund will occur during FY 1994-95. The Branch Budget projects a balance of $14 million in the trust fund after the first payout and projects that the FY 1995-96 appropriation of $10 million and a similar appropriation in FY 1996-97 will provide sufficient funding for the second payout scheduled in FY 1996-97.

HOUSE REPORT

The House concurs with the Branch Budget with the following exceptions: General Fund totaling $2,500,000 in each year of the biennium is provided for the Commonwealth School Improvement Fund. These funds will be made available to local school districts based on guidelines established by the Department of Education. General Fund in the amount of $1,598,000 in FY 1994-95 and $4,081,800 in FY 1995-96 is provided for the Distinguished Educator program. The House adds the following: The total amount of funds to be distributed to local schools from the School Rewards Trust Fund shall be limited to two percent (2%) of the gross statewide payroll in the year preceding the distribution of rewards.

SENATE REPORT

The Senate concurs with the House Report.

CONFERENCE REPORT

The Conference concurs with the Senate Report with the following exception. The total amount of funds to be distributed to local schools from the School Rewards Trust Fund shall be limited to 1.75% of the gross certified payroll in the year preceding the distribution of funds. The average teachers salary in the five school districts with the highest average salary for the last year of the biennium in which the reward was earned will serve as the basis for the reward. Distribution of rewards to lo schools shall be based on policy established by the State Board for Elementary and Secondary Education.

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following exceptions: The total debt service for the Kentucky Infrastructure Authority and the Division for Facilities Management has been consolidated in a Debt Service Unit in General Administration. This change brought in additional debt service from Facilities Management of $6,299,500 in FY 1993-94, $6,945,000 in FY 1994-95 and $8,053,000 in FY 1995-96. The federal fund portion of the Kentucky Infrastructure Authority Fund A - Federally Assisted Waste Water Loan Program totaling $40 million in FY 1994-95 and $35 million in FY 1995-96 has been transferred from the Capital Budget to the Operating Budget to accommodate the Federal Cash Management Act. The Division of Accounts has been moved from the Department for Administration to General Administration in accordance with Executive Order 93-142 and includes 65 staff positions and approximately $3.5 million from the General Fund in each year of the biennium. The program costs for County Fees and County Costs are shown as a separate appropriation unit within the Finance and Administration Cabinet and the payments under the County Cost program are mandated by statute. Other reorganizations during the biennium which are reflected in the FY 1993-94 totals moved the Office of Historic Property to the Department of Facilities Management, moved the Computer Services Section in the Division of Accounts in the Department for Administration to General Administration, and moved the Office of Risk Management to the Department for Administration. Funding for rent, utilities, postage, unemployment insurance, and workers compensation which has previously been funded within one unit in the Cabinet is allocated among the individual units of the Cabinet.

The Branch Budget recommends $200,000 from the General Fund in FY 1995-96 for Gubernatorial Transition. The Branch Budget recommends additional funding from DIS charges for the Kentucky Information Resources Management Commission (formerly KISC), which has been moved from the Department of Information Systems to provide 6 staff positions which will be phased in, operating, and capital totaling $365,000 in FY 1994-95 and $388,000 in FY 1995-96. The research and development for the Commission will be funded from $125,000 from the General Fund and $125,000 from the Road Fund in FY 1995-96. The Office of the Controller was created by Executive Order 93-142 and funding of $135,000 in each year of the biennium was provided for 2 staff positions and operating. The reorganization moved the Division of Accounts, County Costs/County Fees administration, and State Office for Social Security into the Office of the Controller. $1 million from the General Fund is provided in FY 1994-95 to be transferred to the Affordable Housing Trust Fund which is administered by the Kentucky Housing Corporation. $82,200 in FY 1994-95 and $104,100 in FY 1995-96 was recommended to increase the funding for the State Banking Contract and provided total funding of $785,000 in FY 1994-95 and $821,600 in FY 1995-96 to allow for increased costs anticipated in a new contract which is currently being bid. BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1994-96 with the following exceptions: Additional restricted funds of $1.5 million in each year of the biennium are provided for the continued development of the Commonwealth Integrated Network System (CINS). The recommended funding for personnel includes funding for the requested and currently filled positions of 387 but the personnel cap for the Department has been reduced to 381. Telecommunications expenditures for the Division of Network Services has been reduced from the Current Year by approximately $750,000 to account for the Division not doing as much centralized billing as was anticipated during the last biennium. The expenditures for commodities for several Divisions has been reduced below the base by approximately $300,000. The recommended amount for Capital Outlay reflects the base amount which includes $200,000 each year for software for CINS minus $1.3 million which was moved to the Capital Budget for the CINS upgrade. The recommended amount for Capital Construction contains a reduced base to only account for previously authorized projects and adds $1.3 million in each year of the biennium for CINS. The lease payments for existing projects is approximately $4.8 million in each year with funding of $920,000 in FY 1994-95 and $1.6 million in FY 1995-96 provided for lease purchase payments for new equipment.

The Capital Budget provides authorization for a list of equipment items but the recommended amount for new lease purchase payments will not provide for the total list and the Department will have to select which items are needed the most. The Capital Budget also reflects $1 million in the Current Year for CINS which is earmarking existing funds.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following exceptions: $2,062,000 in restricted funds is provided in each year of the biennium for expenditures for Warren County and $1,750,000 in restricted funds is provided in each year of the biennium for expenditures for Hardin County. These two counties now fall under the jurisdiction of the program due to a legislative change that reduced the population requirement from 75,000 to 70,000 effective January 1, 1994. The Branch Budget recommendation does not include the current year request of $1,906,000 for the expenditures of Warren County and Hardin County. Executive Order 93-1142 reorganized the County Fees program from the Department of Local Government to the Office of the Controller in the Finance and Administration Cabinet. The administrative costs will be included in the appropriation for Office of the Controller and the expenditures for county fees will remain a separate appropriation.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: Additional restricted funds are provided in the current year of $1,031,000 for Warren County expenditures and $875,000 for Hardin County expenditures. The expenditures for these two counties now fall under the jurisdiction of the County Fees Program. A separate budget unit is created for County Fees in the Finance and Administration Cabinet.

A financial review by the Council on Higher Education, the University of Kentucky and the University of Louisville shall be held every six months to determine the amount of the offset against the state appropriation.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following additions: The College Access Program(CAP) is recommended for increased funding in the amount of $5,324,800 in fiscal year 1994-95 and $6,435300 in fiscal 1995-96. This reflects the higher rate schedule for the community college tuition adopted by the Council on Higher Education for 1995 and recommended for 1996, and would allow the Authority to fund the number of students receiving CAP grants at the beginning of the 1992-94 biennium(21,800 students). Currently 17,500 students are being served at an average award of $600 annually. The average award for the 1994-96 biennium is estimated to be $822. The Grant programs are funded as follows:

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with provision of a 2% net General Fund operating budget increase in fiscal year 1995 in the amount of $2,182,100; and a net 3% performance-based increase in the amount of $3,338,600 is provided in fiscal year 1996 for which the institution would qualify on the basis of progress achieved in the performance areas outlined in the Higher Education Review Commission's report dated December 20, 1993, as determined by the Governor's Office for Policy and Management.

The recommendation includes a Life/Safety Projects Bond Pool supported by General Fund debt service which will provide $15 million to fund life/safety projects on the university campuses and authorization for a $35 million pool for projects on the campuses to be supported with Restricted Debt Service. The Council will recommend projects to the Secretary of the Finance and Administration Cabinet from the list of projects previously identified and recommended by the Council for funding from state General Fund support in the 1994-96 biennium.

Contingent upon the University of Louisville's commitment of providing $14 million in Private support there is appropriated from the General Fund Surplus Account in fiscal year 1995-96 $1,407,000 for debt service to support the $28 million Research Building on the Health Science Center.

Included in the above General Fund appropriation for fiscal year 1995-96 is $3,338,600 designated as performance-based funding to be allotted based on the performance funding system cooperatively developed by the Council on Higher Education and the universities and approved by the Council on Higher Education on March 7, 1994. Any performance funding for which the University does not qualify, as determined by this performance funding system, shall lapse to the credit of the General Fund. This performance funding system shall be effective for 1995-96 only; the Council on Higher Education and the Conference of University Presidents shall review and revise the funding formula during the 1994-95 interim to incorporate performance funding concepts and principles for use in the 1996-98 appropriations development process.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1994-96 with the following exceptions: Included in the Governor's recommendation is: 1) $6,220,100 General Fund Dollars in FY 1995-96 to increase the AFDC grant (benefit) by 5%. 2) $4,698,300 from anticipated AFDC savings is reallocated in FY 1993-94 and budgeted in the Kentucky Works (Welfare Reform) appropriation unit. 3) $800,000 General/Federal Funds is budgeted to replace lost Restricted funds derived from the Unemployment Insurance Trust fund. 4) The Unemployment Insurance (UI) Benefit Program and $333,957,800 Federal Funds in both FY 1994-95 and FY 1995-96 is transferred to this Department per the dissolution of the Department for Employment Services in the Cabinet's Reorganization Plan. 5) The Child Day Care function is transferred from the department for Social Services including the Federal Funds through the Social Services Block Grant; Child Care Development Block Grant; At-Risk Child Care Program; and Transitional Child Care Program. 6) Increased Child Day Care subsidies by $1,901,200 in FY 1994-95 and $3,333,200 in FY 1995-96 Federal Funds via an administrative overhead reduction to permit an increase in the Federal Block Grant Funds available.
7) Low Income Energy Assistance (LIHEAP) is funded for an Emergency Program only in order to evenly distribute the remainder of the Fund which will be depleted in FY 1995-96. LIHEAP;s budget (Restricted/Federal Dollars) is reduced to $17,309,500 in FY 1994-95 and $18,064,600 in FY 1995-96; Weatherization Budget is reduced to $8,168,200 in FY 1994-95 and $8,155,700 in FY 1995-96.

Language provision in Budget Bill states that these funds are to be used for the payment of benefits and no portion of such may be used for the costs of administration. It is the intent of the General Assembly that any excess benefits appropriations from these programs in FY's 1993-94, 1994-95, and 1995-96 may be used to expand the number of participants in the Welfare Reform Program. Notwithstanding the provision of KRS 341.835, funds from the Unemployment Insurance Penalty and Interest Account shall be used during the FB 1995-96 shall be used by the Workforce Development to operate employment and training programs. If the AFDC Benefits General Fund appropriation shall be deemed to meet necessary expenses, such amount, may be transferred from the Welfare Reform appropriation to the Department of Employment Support Benefits appropriation.

Note: The Branch Budget "Request" display reflect revised funding and does not equal or compare with the Agency Request per the Budget Instructions.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: 1) Does not authorize the transfer of the Department of Social Services Child Day Care Program and returns all funding recommended for this function is redirected to the Department of Social Services. 2) Notwithstanding KRS 12.028 and KRS 194.040, the executive branch shall take no action or expend any appropriated funds for the transfer of programs and services to other state agencies or for contracts which were not authorized in the budget bills or other enabling legislation. The Executive Branch plan to reorganize the Cabinet for Human Resources and rename the Department for Social Insurance is rejected by the House. It is the intent of the House that the Department of Social Insurance continue to provide the following services: Aid to Families with Dependent Children, Food Stamps, Medicaid Eligibility Determination, State Supplementation, Welfare Reform (JOBS), Child Support Enforcement, Commodities, and Energy and Weatherization.

SENATE REPORT

The Senate calculations are based upon the existing organizational structure. Current Services budget requirements provide for maintenance of existing programs and mandated services according to: (1) caseload forecasts based upon current eligibility criteria; (2) personnel related costs for filled positions in November 1993; (3) 2% allowance for operating expenses adjusted for fixed costs projections; and (4) normal replacement for institutional and program equipment and capital outlay.
Current Services includes funding for the JOBS Program, revised spread of energy trust fund, does not include the Food Stamps
E & T which is funded in the Department for Employment Services, and funding remains at the current level for Welfare Reform/JOBS. The Senate concurs with the House in rejecting the plan to reorganize the Department. The Senate reduces the current year FY 1993-94 General Fund Budget for AFDC Benefits by $4,500,000 based on the projected lapse information.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget proposes the transfer of the employment and training functions of the Department for Employment Services', Cabinet for Human Resources, to the Workforce Development Cabinet. This transfer is supported by General Fund in the amount of $1,100,000 in FY 1994-95 and $100,000 in FY 1995-96 for anticipated legal fees and reimbursements to the federal government for disallowed indirect costs. Additional General Fund totaling $1,400,000 is provided in FY 1994-95 to privatize Employment Services' field service functions.

HOUSE REPORT

The House does not concur with the Branch Budget recommendation to transfer the employment and training functions of the Department for Employment Services, Cabinet for Human Resources, to the Workforce Development Cabinet. 1) All funding, with the exception of $1,500,000 in General Fund dollars transferred to the Workforce Development Cabinet, is budgeted in the Cabinet for Human Resources. 2) Notwithstanding KRS 12.028 and KRS 194.040, the executive branch shall take no action or

(Continued)

expend any appropriated funds for the transfer of programs and services to other state agencies or for contracts which were not authorized in the budget bills or other enabling legislation. The Executive Branch plan to reorganize the Cabinet for Human Resources and rename the Department for Employment Services is rejected by the House. 3) It is the intent of the House that the Department of Employment Services continue to provide the following services: Employer and Job Placement Services, Employability and Training Programs (various titles of the Job Training Partnership Act), and Unemployment Insurance Benefits through the existing network of Local Offices and itinerant locations. 4) The Department shall provide Unemployment Insurance services in localities where layoffs which involve more than fifty (50) individuals occur.

SENATE REPORT

The Senate calculations are based upon the existing organizational structure. Current Services budget requirements provide for maintenance of existing programs and mandated services according to: (1) caseload forecasts based upon current eligibility criteria; (2) personnel related costs for filled positions in November 1993; (3) 2% allowance for operating expenses adjusted for fixed costs projections; and (4) normal replacement for institutional and program equipment and capital outlay. The Senate concurs with the House and maintains the employment and training functions of the Department for Employment Services in the Cabinet for Human Resources. 1) All funding is budgeted in the Cabinet for Human Resources. 2) The Senate directs the Department of Employment Services continue to provide the following services: Employer and Job Placement Services, Employability and Training Programs (various titles of the Job Training Partnership Act), and Unemployment Insurance Benefits through the existing network of Local Offices and itinerant locations. In order to accomplish this, General Fund dollars in the amount of $2,758,000 in FY 1994-95 and $2,060,500 in FY 1995-96 and Restricted Funds in the amount of $1,500,000 in FY 1994-95 and $1,500,000 in FY 1995-96 is provided to restore 130 positions due to reduced federal funding and to cover unallowable training costs and associated legal fees. Not withstanding KRS 341.835, funds from the Unemployment Insurance Penalty and Interest Account shall be used in FY 1993-94 and during the 1994-96 biennium by the Department of Employment Services to operate Employment and Training Programs.

CONFERENCE REPORT

The Conference concurs with the Senate and directs that it is the intent of the General Assembly that the Department shall provide access to Unemployment Insurance Benefits and Services in the locality where a layoff of fifty (50) or more individuals at a single employer occurs.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

Included in the Governor's recommendation is: 1) $7,500,000 in FY 1994-95 and $1,661,000 in FY 1995-96 General Fund Dollars were transferred and redirected from the Department of MH/MR and the Department for Health Services budgets, respectively to underwrite the cost of the new Medicaid Waiver population to be served through their programs. 2) $29,888,300 (State/Federal) in FY 1994-95 and $31,027,200 in FY (State/Federal) 1995-96 were transferred and redirected from the Department for Social Services to provide Targeted Case Management for an unspecified array of services payable through the Medicaid Program. 3) $105,861,100 in FY 1994-95 and $203,436,200 in FY 1995-96 in State/Federal dollars are recommended to expand Medicaid services and initiatives and to provide Medicaid coverage for 201,000 eligibles under 100% of the federal poverty level by 1995-95 as authorized by the Waiver Demonstration Project approved by HCFA.
Adjustment for University of Kentucky Intergovernmental Transfer, which is already provided in LRC provider tax estimates, was made to arrive at Restricted Funds totals.
Review Subcommittee of the Interim Legislative Health Care Task Force.
Adjusts projections of the Current Services benefits budget to reflect the impact of program cost Reduction Actions in the amounts of $114.2 million in FY 1995 and $119.9 million in FY 1996.

The Senate concurs with the Branch Budget recommendation with the following exceptions:
The Senate provides a FY 1993-94 current year General Fund appropriation of $11,200,000.
Provider Tax income is projected to be: FY 1993-94 $125,200,000; FY 1994-95 $158,500,000; and FY 1995-96 $166,400,000
In the event the Commonwealth experiences a General Fund Deficit, it is the intent that no reduction in services or eligibles will result.
If such occurs, there will be a reduction in the provider reimbursements for covered services. If the Medicaid Benefits appropriation is insufficient, provider reimbursement rates shall be reduced; no reduction is permitted in services and current eligibility.

CONFERENCE REPORT

The Conference concurs with the House with the following exceptions:
If there is an enactment by the 1994 General Assembly providing for the creation of a Medicaid program savings trust fund, any savings in the Medicaid program certified by the secretary of the Finance and Administration Cabinet and transferred to a trust account for utilization by the secretary of the Cabinet for Human Resources to provide health care coverage for additional categories of citizens shall be determined as follows:
a) If the actual annual number of eligibles is greater than 531,310 in FY 1993-94, greater than 553,000 in FY 1994-95 or greater than 570,000 in FY 1995-96 then savings for that fiscal year shall be defined as the amount obtained by subtracting actual total Medicaid benefits expenditures, excluding disproportionate share payments, from the enacted budget amount for total Medicaid benefits expenditures, excluding disproportionate share payments, for the corresponding fiscal year; or
b) If the actual average number of eligibles is equal to or less than 531,310 in FY 1993-95, equal to or less than 553,000 in FY 1994-95 or equal to or less than 570,000 in FY 1995-96 then savings for that fiscal year shall be defined as the quantity obtained by subtracting the actual annual average monthly cost per eligible for the fiscal

year from the base monthly cost per eligible for the fiscal year, multiplying the result by the actual annual average number of eligibles for the fiscal year, , and multiplying that result by twelve. The base monthly cost per eligible shall be $279.28 in FY 1993-94, $278.83 in FY 1994-95, and $296.27 in FY 1995-96. Actual annual average monthly cost per eligible shall be calculated using the methodology which was used by the Department for Medicaid Services to derive the $275.56 annual average monthly cost per eligible for FY 1992-93.

Notwithstanding any provision of the Kentucky Revised Statutes to the contrary, savings shall be certified on an annual basis, within sixty (60) days of the close of each fiscal year. Only savings that are certified as recurring shall be transferred to the trust fund. Any amounts in the trust fund shall not be expended until specifically appropriated by the General Assembly.

SENATE REPORT

The Senate calculations are based upon the existing organizational structure. Current Services budget requirements provide for maintenance of existing programs and mandated services according to: (1) caseload forecasts based upon current eligibility criteria; (2) personnel related costs for filled positions in November, 1993; and 93) 2% allowance for operating expenses adjusted for fixed costs projections; and (4) normal replacement for institutional and program equipment and capital outlay.

A budgeted filled positions complement of 618 permanent full-time positions (PFT) are funded. The November 1, 1993 actual filled PFT positions was 644. A Current Services Restoration Request based on the agency's determination of most critical unmet needs include: 10 additional PFT staff, laboratory equipment replacement, and Local Health Department Grants for a total of $1,019,000 (General Funds) in FY 1994-95 and $931,000 ($731,000, General Funds) in FY 1995-96. General Fund Local Health Grants for Preventive Health have not been increased in over 10 years. Recent increases have been mandated to specific services/programs.

Also, federal funds are provided for current Disability Determinations staff.

SENATE REPORT

The Senate calculations are based upon the existing organizational structure. Current Services budget requirements provide for maintenance of existing programs and mandated services according to: (1) caseload forecasts based upon current eligibility criteria; (2) personnel related costs for filled positions in November, 1993; (3) 2% allowance for operating expenses adjusted for fixed costs projections; and (4) normal replacement for institutional and program equipment and capital outlay.

A budgeted filled positions complement of 2,875 permanent full-time positions (PFT) are funded. The November 1, 1993 actual filled PFT positions was 2,882. A Current Services Restoration Request based on the agency's determination of most critical unmet needs include 10 additional PFT staff located at MH/MR facilities with $250,000, General Funds in FY 1994-95 and $379,800, General Funds in FY 1995-96. MH/MR's growth rate for Grants/Benefits is projected at 6% based upon the historical growth trends for medical supplies/services including contracts with MH/MR Centers and other Care and Support costs related to the care of residents at the MH/MR facilities/hospital.

Also, funds are included for : three 8-bed ICF-MR facilities; Maintenance level of adult services through the Community Mental Health Services Block Grant; Rape crisis centers; Kentucky Impact; Medication for mentally ill adults; and Salary adjustments/increases for patient aides, patient aides seniors, and nurse aides state registered.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

LRC Note: The FB 1994-96 Executive Budget Document and Budget Bill reflect separate appropriation units for "Administration" and "Benefits". However "Administration" is defined as "services provided with Departmental employees" which includes all services provided by field staff as well as the offices and divisions identified in 1992 House Bill 468. Therefore, the actual funding for "services" and the dollars for the related administration are not separately identified in the Executive Budget Document.

1992 House Bill 468 (Budget Bill) provides: "- Administration program code: Funds for administration costs including but not exclusive of the Commissioner's Office including the Quality Assurance Branch and the Division for Program Management shall be allotted, expended, and displayed in appropriate requests and reports as a separate program code or appropriation unit." (Part IX, Section 15)

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following exceptions: General Fund moneys in the amount of $305,500 in FY 1994-95 and $313,900 in FY 1995-96 has been provided to the additional rental costs that will be incurred with the Lexington and Central Office Medical Examiner offices' move to the new Centralized Laboratory. In FY 1994-95, $94,500 is also provided from the General Fund to support the acquisition of a new X-ray machine. Personnel supported by the Branch Budget include 27 permanent full-time positions and four part-time positions. Fourteen (14) of the full-time positions are in the Office of the Secretary, seven (7) are in the Division of Grants Management and six (6) are in the Medical Examiners' Office (along with the four part-time positions).

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: A total of $61,200 in FY 1994-95 and $64,100 in FY 1995-96 is provided to support a "Program Coordinator" and "Program Specialist" position to administer the Justice Cabinet's juvenile programs. Of the amount noted to support these positions, $33,300 and $51,500 in each respective year of the next biennium is provided from the General Fund: the balance is provided from federally funded grants. $500,000 is provided in FY 1995-96 to enhance the Justice Cabinet's ability to maximize the acquisition of federal grants. These federal/state funds are permitted be used to provide incentives to local governments to develop and implement alternatives to juvenile detention facilities. The Justice Cabinet shall provide a program and financial status report to the Interim Joint Committee on Appropriations and Revenue on the distribution of this $500,000 on a quarterly basis. This communication shall include the following: The recipient and purpose, the amount provided; the total funding commitment made to the initiative; the projected goals; and outcomes and their status.

The Senate concurs with the House with the following exceptions: The Lexington office of the State Medical Examiner's Office will continue its operations in Lexington. As a consequence, $240,000 is removed from the Medical Examiners' Office, that was planned to be used to support the additional utility costs associated with the move to the new Centralized Lab in Frankfort. General Fund moneys in the amount of $500,000 in FY 1995-96 that are included in the House budget to match federal grants and alternative to juvenile detention programs are deleted. A current year General Fund appropriation of $500,000 is provided to the Office of the Secretary to support the start up costs of the Division of Charitable Gaming. These moneys shall not lapse to the General Fund Surplus account at the end of FY 1993-94, but will continue to be available through FY 1994-95. This appropriation shall be paid back to the General Fund Surplus Account over the next biennium from fees generated through the licensing of charitable gaming operations. The license fees will also provide an ongoing source of funds for this program.

CONFERENCE REPORT

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following exceptions: Additional moneys totaling $743,700 in FY 1994-95 and $1,295,800 in FY 1995-96 have been provided equally from the General and Road Funds to support 15 additional troopers each year. Part of this funding will also support the purchase of a vehicle and other necessary equipment for each trooper. The additional 15 troopers each year would increase the authorized sworn trooper strength from 970 to 1,000 by FY 1995-96. Following is a breakdown in the costs:

Expenditure	FY 1994-95	FY 1995-96
Personnel Costs-Troopers(15 each year)	296,500	742,000
Operating Costs	83,300	188,300
Vehicles (15 each year)	367,500	365,500
	747,300	1,295,800

A supplemental appropriation has been recommended in the current year, that totals $3 million (from the Road Fund) and support the purchase of 214 new vehicles. General Fund and Road Fund moneys in the amount of $1,750,000 are provided equally each year, to support the purchase of an additional 125 vehicles each year. The additional costs that will be incurred with the move of the State Police crime laboratory to the new Centralized Laboratory has been covered in the Branch Budget in the amounts of $483,000 and $497,000 in each respective year of FB 1994-96. The Branch Budget supports four new permanent full-time positions. $49,400 in FY 1994-95 and $51,900 in FY 1995-96 is provided from Restricted Funds to support two police dispatcher positions. These two positions are part of the Emergency 911 operation at the La Grange Post and are supported by a surcharge placed on telephone bills in the area covered by this operation. Two forensic serologist positions are support by the General Fund in the amounts of $53,500 in FY 1994-95 and $56,000 in FY 1995-96. These two positions are tied to an expansion in the testing of DNA samples that includes an additional $170,000 ($90,000[operating costs]/$80,000 [capital outlay]) in FY 1994-95 and $90,000 (operating costs) in FY 1995-96.

New General Fund debt service in the amount of $454,000 is provided in FY 1995-96 to support the major upgrading of the Law Information Network of Kentucky (LINK) system. The total costs of this system is $3,151,000, provided from bond moneys, to be paid back over ten years. Moneys are also provided for existing debt service payments of $280,000 in FY 1994-95 and $279,000 in FY 1995-96. This debt service supports the construction of the Mayfield Post and the Automated Fingerprint Information System.

-Continued-

Included in the Branch Budget for the State Police is funding to support 1,087 permanent full-time employees (... ...
number includes the 30 new troopers, the two new forensic serologist, two new police dispatchers, and the restoration of 8 other dispatcher positions.

The Branch Budget includes $9.5 million in FY 1994-95 and $11.7 million more Road Fund moneys than is included in the current year State Police budget(not including the current year appropriation). A current year appropriation of $3 million (for motor vehicles is also in the Branch Budget. The Road Fund share of the Branch Budget amounts to 45% in FY 1994-95 and 44% in FY 1995-96. This percentage compares to 34% (Road Fund share) in the current year, excluding the current year request for $3 million additional Road Fund moneys.

Capital Budget projects supported by the General Fund in the Branch Budget total $200,000 in FY 1994-95 for the removal/replacement of gasoline storage tanks. Federal Fund moneys are provided in the amount of $572,000 in FY 1994-95 and $150,000 in FY 1995-96 to support the Laboratory Information Management System (LIMS). $150,000 is provide each year from Investment Income to do minor maintenance projects.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: $323,400 is provided from the General Fund in each year of the next biennium to support enhancement of the state police dispatcher pay classification. This money will provide a $2,000 increase on the annual salary (whose current entry level is $12,400) and is exclusive of any other salary increment that may be provided to all state employees. A "State Trooper Horizontal Career Program" is provided for, at a cost of $683,800 in each year of the next biennium. These moneys will come from the General Fund. This program would re configure the existing "Senior Trooper" classification into three steps: "Senior Trooper"; "Trooper First Class"; and "Master Trooper". Current "Senior Troopers" who have held the position for at least five years will be eligible for this program and a three (3) percent salary increase. This salary enhancement is also exclusive of any other salary increment that may be provided to all state employees.

SENATE REPORT

The Senate concurs with the House with the following exceptions: General Fund moneys in the amount of $400,000 in each year of the next biennium are provided to reimburse sworn officers for the cost of auto liability insurance that is required by this occupation. The Horizontal Career Path program is deleted. This action reduces the State Police General Fund appropriation by $683,800 in each year of the next biennium. The Law Information Network of Kentucky (LINK) capital construction item is removed. This action eliminates the need for General Fund moneys in the amount of $454,000 in FY 1995-96 for debt service.

CONFERENCE REPORT

The Conference concurs with the Senate except to delete the $200,000 General Fund appropriation from the Capital Budget for the Bulk Tank/Removal/Replacement Project. The Justice Cabinet is directed to apply for eligible funding from the Petroleum Storage Tank Environmental Assurance Funding Commission, for this purpose.

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following exceptions: $122,000 is provided in FY 1994-95 and $125,800 is provided in FY 1995-96 to support two new instructors and one new secretary. The Branch Budget includes a provision that would transfer KLEFPF moneys remaining (at the end of each fiscal year of the next biennium) above $3 million fund balance reserve to the General Fund and estimates $1,334,700 in FY 1994-95 and $287,500 in FY 1995-96 as the amount of KLEFPF moneys that would lapse to the General Fund Surplus account. This action requires the suspension of the following statutes: KRS 15.430, as it relates to the appropriation of KLEFPF moneys to support the Dept. of Criminal Justice Training. Appropriations to Criminal Justice Training for the operation of the department total $5.2 and $4.3 million in each respective year of the next biennium; KRS 42.190-as it relates to the lapsing of moneys in excess of $1 million fund balance at the end of the fiscal year from KLEFPF; and KRS 136.392 as it relates to the statutory adjustment of the insurance surcharge tax rate to meet actual program needs.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: The provision in the Branch Budget proposing that an estimated transfer of $1,334,700 in FY 1994-95 and $287,500 in FY 1995-96 of KLEFP funds to the General Fund is deleted, along with the language that would suspend KRS 42.190, as it relates to the lapsing of KLEFP funds over a $1 million fund balance reserve to the General Fund.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1994-96. Included within this unit is General Fund support of $383,200 in FY 1994-95 and $401,800 in FY 1995-96 for operation and minor maintenance of Kentucky River Locks and Dams 5-14. Also included are restricted and federal funds to support the Water Patrol Division, which was transferred by Executive Order in December, 1993, to the Department of Fish and Wildlife Resources. The Branch Budget provides $200,000 each year in restricted funds from interest in the Conservation Equipment Revolving Loan Program for operational expenses consistent with the actions of the 1992 General Assembly.

The Branch Budget recommends that a forest health specialist and a tree improvement forester be funded with restricted and federal funds. To the extent that the Commonwealth fulfills the requirements of the Federal Surface Mining Control and Reclamation Act of 1977, PL 95-87, with fewer positions than budgeted in FB 1994-96, those positions and savings realized may be transferred to the Department for Natural Resources, Division of Forestry.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: the Division of Water Patrol and associated operating budget of $1,894,600 restricted funds and $595,600 federal funds in FY 1994-95 and $1,971,300 restricted funds and $600,000 federal funds in FY 1995-96, and 51 permanent full-time positions, are transferred to the Department of Fish and Wildlife Resources. Two soil scientists positions in the Division of Conservation are restored and shall be budgeted within existing resources for the Cost Share Program and $275,000 in restricted funds each fiscal year is provided from the increased fees for pesticides registration, contingent upon the passage of enabling legislation (HB 452). Two energy conservation positions in the Division of Energy are restored and shall be budgeted within existing resources for the state government energy efficiency program.

SENATE REPORT

The Senate concurs with the House.

CONFERENCE REPORT

The Conference concurs with the House and Senate.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends reduced funding for existing services and programs in FB 1994-96 in the Commissioner's Office, the Water Division, the Waste Management Division, and the Maxey Flats Program. The Branch Budget recommends funding for existing services and programs in FB 1994-96 for the Environmental Lab and for increased costs associated with its planned move to the State Centralized Lab. It also provides additional General Fund support for three new positions for groundwater protection planning ($207,000 in FY 1994-95 and $227,800 in FY 1995-96) and one new position in the Lab to perform risk assessment analysis ($22,400 in FY 1994-95 and $26,800 in FY 1995-96). Additional restricted funds from air emission fees are authorized for 16 new positions in the Air Division ($446,100 in FY 1994-95 and $655,800 in FY 1995-96) and for three new positions in the Lab to monitor air toxics ($133,800 in FY 1994-95 and $144,800 in FY 1995-96) to develop and implement programs related to the 1990 Amendments to the Federal Clean Air Act. Restricted funds received from a federal grant of $222,100 in FY 1994-95 and $38,500 in FY 1995-96 would be used to develop a mixed waste testing capability at the Lab to conduct testing for the Paducah Gaseous Diffusion Plant project and for the Maxey Flats closure plan. Also included are additional restricted funds of $2.9 million each year based on proposed revisions to the Hazardous Waste Assessment Fund fee structure which is used as a state match on Superfund cleanups and to perform remediation of sites which do not qualify for the Superfund list.

Included in the Branch Budget recommendation is $100,000 each year for low-flow gauging stations; $200,000 in FY 1994-95 and $50,000 in FY 1995-96 for water supply planning purposes pursuant to KRS 151.118, and $112,500 each year (50:50 General Fund:Federal Fund) for the Kentucky Partners Program, the state's waste reduction center housed at the Speed Scientific School at the University of Louisville pursuant to KRS 224.46-315.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: the additional restricted funds of $2.9 million each fiscal year in the Operating Budget and the Capital Budget for the Hazardous Waste Assessment Fund are deleted since enabling legislation to revise the fee structure was not enacted. Notwithstanding KRS 154.12-202, the Recycling Brokerage Authority and associated operating budget of General Fund dollars of $181,400 and restricted funds of $50,000 in FY 1994-95 and General Fund dollars of $188,300 and restricted funds of $50,000 in FY 1995-96, and 3 permanent full-time positions, are transferred to the Department for Environmental Protection.

The Clean Air Task Force established by the 1992 General Assembly is continued. The task force shall include representatives of industry, the environmental community, and the Cabinet, and shall report quarterly to the Legislative Research Commission for referral to appropriate committees. The Cabinet shall also report quarterly to the Legislative Research Commission for referral to appropriate committees on the development and implementation status of the programs required by the 1990 Amendments to the Federal Clean Air Act.

*As funding becomes available through vacancy credits or other cost savings measures, the Cabinet shall upgrade the Environmental Inspector classifications consistent with the Personnel Board Order of October, 1991.

SENATE REPORT

The Senate concurs with the House except that the funding for the Recycling Brokerage Authority shall be budgeted in the Economic Development Cabinet.

CONFERENCE REPORT

The Conference concurs with the House.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following additional funding items: (1) Additional restricted funds of $70,000 in FY 1994-95 are recommended to publish the Kentucky Building, Plumbing and Fire Prevention Code books. (2) Surplus restricted funds are included in appropriation amounts of $2,418,300 in FY 1994-95 and $1,794,300 in FY 1995-96 are estimated for lapse to the General Fund Surplus in the Professional Firefighters Foundation Program Fund above the proposed annual fund balance level of $3M. KRS 15.430-510, 42.190 and 136.392 are suspended for these purposes.

Language in the Budget Bill increases the carry-forward provision for the Firefighters' Foundation Fund from $1,000,000 (KRS 42.190) to $3,000,000 each year. Legislation is anticipated to amend KRS 42.190. Additional Budget Bill language suspends KRS 236.120 and sets boiler inspection fees at $15, which is the level set in 1992 HB 468. Other additional fee increases authorized in the FB 1992-94 Budget Bill are continued in FB 1994-96. HB 43 codifies the fees at $15. The direct appropriation for the Firefighters' Foundation Program Fund are $15,090,100 in FY 1994-95 and $15,504,600 in FY 1995-96.

* Restoration of personnel funds is included in Current Services.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exceptions: The House recommends additional restricted funds of $250,000 in FY 1994-95 for the purchase of 3 mobile units for firefighter driver training. The Workforce Development Cabinet will conduct the training. Additional restricted funds of $87.600 in FY 1994-95 and $79,400 are provided for 4 additional personnel to implement enabling legislation relating to HVAC Contractor licensing.(HB 7) Start-up funding for this program will be borrowed from other restricted fund sources and shall be repaid as resources accrue from the fees for Contractor licensing. Restricted funds of $500,000 in FY 1995-96 from the Firefighters' Foundation Fund are transferred to the General Fund; this action reduces the fund balance reserve from $3M to $2.5M.

SENATE REPORT

The Senate concurs with the House with the following exceptions: (1) Additional restricted funds of $250,000 in FY 1994-95 for the purchase of mobile units for firefighter driver training are not provided. (2) Additional restricted funds of $500,000 in FY 1995-96 are not provided for transfer to General Fund surplus. (3) The carry-forward provision of $3,000,000 for the Firefighters' Foundation Fund is revised to $2,000,000. This action suspends KRS 15.430-510, KRS 42.190 and KRS 136.392. The insurance premium surcharge shall be adjusted as provided in KRS 136.392 (b).

CONFERENCE REPORT

The Conference concurs with the Senate with the following exceptions: Restricted funds of $2,750,000 each year are transferred to the General Fund. These amounts include the $1M decrease in allowable carry forward and estimated surplus above the $2M year end fund balance. KRS 136.392 (1) (b) relating to the insurance premium surcharge adjustment by the Secretary of Revenue is hereby suspended. This action allows the Firefighters Foundation Fund to meet budgeted needs of $17,840,100 in FY 1994-95 and $18,254,600 in FY 1995-96. (Includes fund transfers)

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FB 1994-96 with the following additional funding items: (1)** Additional General Fund dollars of $957,600 in FY 1994-95 and $951,600 in FY 1995-96 and additional restricted funds of $259,300 in FY 1994-95 and $1,175,600 in FY 1995-96 to increase funding for the Grants to Counties Program. (2)Additional General Fund dollars of $25,000 each year are provided for response to the Kentucky Supreme Court's ruling in Lincoln County v. Department of Public Advocacy which held that the Department is responsible for case-related mental health expert expenses for indigents when confined in a state correction institution. (3) Additional restricted funds of $269,200 in FY 1994-95 and $360,100 to hire 4 Assistant Public Advocates and 2 investigators for the Capital Trial Unit. $100,000 is included each year to raise the fees of private attorneys involved in indigent death penalty trials to a maximum of $10,000. (4) Additional restricted funds of $141,600 in FY 1994-95 and $128,700 in FY 1995-96 to hire 2 Assistant Public Advocates, 1 paralegal and 1 secretary for a State Capital Post-Conviction Unit. (5)** Additional General Fund dollars $250,000 each year to provide funds for defending indigents in civil contempt cases pursuant to the Supreme Court ruling in the cases of Lewis v. Lewis. (6) Additional restricted funds of $274,500 in FY 1994-95 and $278,000 in FY 1995-96 to hire 2 attorneys, 4 paralegals 1 secretary and 1 investigator to expand the Post-Conviction Unit at the Eastern KY Correctional Complex and to provide services to the new Muhlenburg prison. (7) Additional restricted funds of $230,400 in FY 1994-95 and $207,000 in FY 1995-96 to hire 4 Assistant Public Advocates, 1 secretary and 1 typist to establish a full-time Public Defender office in Kenton County. (8)** Additional General Fund dollars of $105,000 in FY 1994-95 and $98,500 in FY 1995-96 to hire 1 clerk and 1 secretary and provide Public Defender training grants.

The recommended increase in restricted funds is predicated upon legislation the amend KRS 31.120 to provide a $40 up-front "user" fee for public defender services and legislation to amend KRS 189A.050(1) and (3) to increase DUI service fees from $150 to $200, with 25 percent of the total fee dedicated to Public Defender services. Implementation of new expanded program funding is contingent upon the finding by the Governor's Office for Policy and Management that sufficient new restricted funds have been generated by the proposed revenue measures to sufficiently support these additional budget items.

The current year supplemental request was for restoration of personnel funds pursuant to the 10% salary reduction, which were reflected as reduced General Fund and federal fund appropriations in Part I. GOPM included these requests in the Current Services level of funding. Included in the Current Year General Fund appropriation is a mandated allotment of $35,000 for the Grant Program for Jefferson Count pursuant to prior agreement.

The recommended additional funding is based on the Governor's Task Force on the Delivery and Funding Quality of Public Defender Services.

** Not based on legislation for restricted fund increase.

HOUSE REPORT

The House concurs with the Branch Budget recommendation with the following exception: Current Services General Fund dollars are reduced $100,000 each year.

SENATE REPORT

The Senate concurs with the Branch Budget recommendation.

CONFERENCE REPORT

The Conference concurs with the House.

BUDGET MODIFICATION REPORT

BRANCH BUDGET

The Branch Budget recommends funding for existing services and programs in FBI 1994-96 with the following exceptions: Branch Budget recommends that $139,800 of the Kentucky Transportation Center total $290,000 funding in each fiscal year of FB 1994-96 be allocated from the Revenue Sharing programs: County Road Aid ($53,100); Rural Secondary Aid ($64,400); and Municipal Road Aid ($22,300). KRS 177.320(1)(2) are suspended in the Budget Bill. The Executive Budget Document notes that the recommended budget assumes that a statutory change will be made by the 1994 General Assembly, which will redistribute the statutory burden (from the Motor Fuels Tax) for funding the Kentucky Transportation Center and raise its maximum annual appropriation from $190,000 to $290,000. Following are the recommended appropriations to the four programs that are funded under this appropriation unit:

Program	Y 1993-94(Revised)*	FY 1994-95	FY 1995-96
County Road Aid	68,437,600	69,738,600	71,161,400
Rural Secondary Road Aid	83,018,200	84,600,900	86,326,900
Municipal Road Aid	28,796,600	29,343,500	29,942,200
Energy Recovery Road Fund	1,005,000	1,055,000	1,105,000

*The amounts shown in the FY 1993-94 Revised column includes an additional $4,567,000 in Road Fund moneys. These moneys, which are part of excess receipts (over the Official Revenue Estimate) are the statutory Motor Fuel Tax allocations to the County, Rural Secondary, and Municipal Road Aid Programs. The amount shown above in Part I (Appropriations Summary) does not include this amount and reflects the FY 1993-94 enacted budget.

The Bond Funded construction program that is included in the Branch Budget recommendations totals $66.5 million in FY 1995-96 and $93.5 million in FY 1995-96. These moneys are derived from the proposed $150 million Economic Development Road Bond issue that is included in the recommended budget. This $150 million issue coupled with a projected interest earnings of $10 million represents the last installment of the $600 million road bond authorization, that was enacted by the 1990 General Assembly.

Additional funding is provided in Engineering Administration for six new positions in the amount of $26,800 in FY 1994-95 and $27,900 in FY 1995-96. The balance of the moneys needed to support these positions will come from time charged to various highway construction projects. The positions funded in this budget are: 2-Environmental Biologist Sr. (3061-[$1,683 monthly]); 1- Chemist (4041[$1,527]); 1- Planner Principal (8044[$1,527]); and Transportation Engineer Aid II (7074[$937]).

$1.5 million is provided from the Road Fund in each year of FB 1994-96 to support minor maintenance and construction projects around the state. In Engineering Administration, $57,500 and $10,000 is provided in each respective year of the next biennium from the Road Fund to procure a Pavement Profilometer. In the Maintenance program, $289,700 is provided in FY 1994-95 and $305,700 in FY 1995-96 to support the privatization of Rest Area maintenance. Additionally, $1.5 million ($500,000 in FY 1994-95 and $1,000,000 in FY 1995-96) is provided over the next biennium to support bridge cleaning and paintings.

Provisions in the Branch Budget Bill require that no interest is to accrue to the Snow and Ice Removal Reserve Fund during the current biennium. Language is also included that allows the Snow and Ice Removal Reserve Fund to used only after $6.9 million has been expended in any fiscal year for the removal of snow and ice. Moneys in the Snow and Ice Removal Fund (approximately $7.5 million) does not lapse at the end of FY 1994-95.

Notwithstanding KRS 48.710, $1,400,000 is provided in FY 1994-95 and $800,000 is provided in FY 1995-96 from the sale of surplus equipment to purchase highway equipment.

The Road Fund Surplus Plan that is included in the Branch Budget Bill directs that 50% of eligible Road Fund surplus be deposited in the Highway Construction Contingency Account and 50% be deposited in the Snow and Ice Removal Reserve Fund.

*NOTE: The Transportation Cabinet Agency request included moneys to restore 616 permanent full-time positions to the "Current Services" level of 4,330 full-time positions and 416 "other" positions. Funding is provided in the Branch Budget to support 4,843 permanent full-time positions and 416 "other" positions. The 4,843 permanent full-time positions include the 6 new positions for Engineering Administration. Included in the funded permanent full-time positions, were 49 vacancies (at November 30, 1993). Following is a program breakdown of the permanent full time positions that have been recommended for Highways.

Program	Requested	Recommended	Difference
Maintenance	2,839	2,769	(70)
Engineering Administration	1,363	1,312	(51)
Planning	40	40	
Highway Operations	395	381	(14)
Equipment	345	341	(4)
Total	**4,982**	**4,843**	**(139)**

Out of 616 positions requested to be restored by the Transportation Cabinet, 139 were not restored. The related costs of these positions is not shown because the methods of establishing a value on these positions differ in the Branch Budget from the Transportation Cabinet agency request. Consequently, "Current Services" appears smaller in the Transportation Cabinet request column, than what is shown in the Branch Budget.

The House provides $2 million from the Road Fund in each year of the next biennium to replenish the Snow and Ice Removal Reserve Account. Notwithstanding KRS 45.229 the appropriations to the Snow and Ice Removal Reserve Account shall not lapse, but will continue to be available in FY 1995-96. An additional $1 million is provided each year from the Road Fund to purchase heavy trucks suitable for Snow and Ice Removal and other snow removal related equipment. $3 million is provided in fiscal year 1994-95 to support a State Assisted Bridge Program. These moneys shall be used to match local moneys on an 80:20 (State: Local) basis, to rehabilitate local bridges to a standard that will allow them to accommodate vehicular traffic. Notwithstanding KRS 45.229, the moneys appropriated for the State Assisted Bridge Program shall not lapse, but continue to be available in for expenditures in fiscal year 1995-96. The House establishes the Construction Demonstration Program to provide the 1996 General Assembly the information necessary to determine whether highway construction projects should be accelerated when local governments assist in easing the preconstruction difficulties that the Transportation Cabinet sometimes face. Construction Project Number 04-103.02 will be moved from fiscal year 1995-96 to fiscal year 1994-95, if other phases have been performed sufficiently to allow the construction phase to begin. Item Numbers 04-103.05 and 05-225.00 (Right of Way and Utilities) shall be commenced in fiscal year 1995-96.

The following adjustments are made to the 1994-96 Biennial Highway Construction Program: Uncompleted projects funded in fiscal year 1993-94 of the FB 1992-94 Biennial Construction Program shall remain eligible for completion by use of fiscal year 1994-95 and fiscal year 1995-96 funding. Any fiscal year 1994-95 funded projects not completed on schedule shall be funded with the fiscal year 1995-96 appropriations. Other modifications to the Biennial Construction Program are as follows:

2. Item Number 02-969.01--KY 85 is eliminated. The funding of $2 million is transferred to complete the design, right of way, and utility phases of Item Number 02-289.00 in Hopkins County.
3. $1.1 million is made available in the 1994-96 Biennial Highway Construction Program to reconstruct Route 3193 in Breathitt County to eliminate flooding conditions on the road.
4. Item Number 06-311.00--Right of Way and Utility Phases of this project shall be included in the Biennial Highway Construction program in fiscal year 1995-96.
5. One million shall be made available in fiscal year 1995-96 for the design of five miles of reconstruction on KY 19 in Bracken County between Brooksville and Augusta.
6. $1.6 million shall be made available in the Biennial Highway Construction Program to complete the reconstruction of KY 711 (Wrigley to Blair Hill) in Morgan County.
7. $300,000 shall be made available in fiscal year 1994-95 to repair road slippage on US 42 in Gallatin County.
8. Construction of US 150 (Item Number 04-103.02) shall be funded in fiscal year 1994-95.

SENATE REPORT

The Senate concurs with the House with the following exceptions: All modifications to the Branch Recommended 1994-96 Biennial Highway Construction Plan with the exception of Item #08-143.00 in Rockcastle County are deleted.

CONFERENCE REPORT

The Conference concurs with the House and the Senate with the following exceptions: The language in the House Report that relates to Construction Project Item Number 02-969.01 and 02-289.00 is deleted. All other modifications in the House Report to the Branch Recommended 1994-96 Biennial Highway Construction program are included in the Highway Budget. Biennial Highway Construction language as it relates to the inclusion of uncompleted projects from the 1992-94 Biennial Highway Construction Plan is deleted. If any surplus highway construction moneys become available in either fiscal year of the next biennium, the design phase of Project Number 05-247.00 (Blue Lick Road) shall be funded in the 1994-96 Biennium.

The Right of Way, Utility, and Construction phases of Project Construction Number 10-1008.00 (KY 52) shall be included in the Transportation Cabinet's "20%" Project List. The "20%" Project list will be the projects that shall be constructed by the Transportation Cabinet if excess highway construction moneys become available from FB 1994-96 appropriations or unanticipated federal funds.

A Strategic Weather Emergency Response Plan shall be developed by the Transportation Cabinet to prepare for, and respond to, emergency and extraordinary weather conditions that might occur in the Commonwealth. This plan shall be developed by November 15 of each fiscal year of the next biennium and shall include the following:

1. An inventory of the available equipment and personnel that the Transportation Cabinet, each local governmental entity, and all known highway construction contractors possesses that could respond to a weather emergency under this plan. This inventory shall include the geographic location of the available personnel and equipment;

2. Directives that required the Transportation Cabinet to strategically allocate equipment, personnel, and financial resources during a weather emergency to insure that roads throughout the Commonwealth are cleared as soon as possible and remain open during a weather emergency;

3. Directives that would require that the Transportation Cabinet to enter into a contract with each city, and county government, and to have negotiated pre-purchase contracts with each state road contractor, for specific equipment and personnel to respond to a weather emergency; and

4. A telephone number that is available to each city and county government and each state highway contractor whose is participating under this plan.

The Secretary of Transportation shall utilize the $6,900,000 that is included in the Current Services budget of the Maintenance program in each fiscal year to execute the Strategic Weather Emergency Response Plan. When these moneys are depleted, the Secretary shall utilize the Snow and Ice Removal Fund. If this fund is also depleted, the Secretary may use appropriations from within the Highways appropriation unit to execute this plan.

All adjustments made to the 1994-96 Biennial Highway Construction Program in the above language shall supersede any contradictory directions in the 1994-2000 Six Year Road Plan as published by the Transportation Cabinet or the 1994-96 Biennial Highway Construction Program that follows.

*The final payment for the 1965 General Obligation Highway Bonds are scheduled to be made in FY 1994-95. These bonds represent the only non Turnpike Authority bonds in the Transportation Cabinet.

Branch Budget recommendations also include the provision that the Road Fund support the debt service payments for the Resource Recovery Road Bonds, suspending the statutory provisions provided by KRS 143.090, which provides support from Coal Severance tax revenue. The Branch Budget also suspends KRS 175.505, which provides an appropriation from the five cent (5¢)gas tax to the Debt Payment Acceleration Account that would have amounted to approximately $12.5 million annually. Excess Road Fund appropriations not needed to meet debt service payments are recommended to be transferred to the Highways Appropriation Unit's "Highway Contingency Account".
